Career Objective

To obtain a challenging position as a Full Stack Developer where I can apply my skills in the MERN stack and Python to build efficient, scalable, and user-focused web applications, while continuously learning and contributing to the growth of the organization.

Projects

To-Do App

[\[Live Demo\]](#)

Crafted a responsive to-do app using modern React and Vite. Implemented features including task addition, completion toggles, editing, and deletion with React Hooks. Enabled persistence using localStorage and deployed live on Netlify.

Personal Portfolio Website

[\[Live Demo\]](#)

Developed a responsive portfolio using React and Vite, showcasing projects, skills, and contact details. Applied modular component design and optimized builds with Vite. Hosted on Netlify with automated deployment.

JavaScript Learning Roadmap

[\[Live Demo\]](#)

Created a guided learning roadmap website for mastering JavaScript. Structured concepts step-by-step with interactive navigation, enabling beginners to track their progress. Built with modern web tools and deployed on Vercel.
